## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Nowak et al., U.S. Patent # 6,172,558 B1.

Fig. 4 of Nowak et al. discloses a circuit comprising: switching circuit units KE1-KE5 can be read as N switching circuit units wherein the order of first to fourth switching elements are indicated in the enclosed marked Fig. 4.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Nowak et al., U.S. Patent # 6,172,558 B1.

Although Nowak et al. does not mention about all or part of the switching circuit is detachably provided, it would have been obvious at the time the invention was made to a person having ordinary skill in the art to design all or

Art Unit: 2817

part of the switching circuit is detachably for mobility convenience depending on the use of the circuit since this is a matter of design choice.

***Allowable Subject Matter***

Claims 2, 4, and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. patents # 5,247,581, # 6,496,059 B1, # 6,175,272 B1 contain some limitations of the claimed invention.
